

Anika Binta Azad Shifa

AI TRAINER | DATA ANNOTATOR

Dhaka, Bangladesh | +8801721136020 | anikabintaazad24@gmail.com

GitHub | LinkedIn | Portfolio

Education

Bachelor of Science in Computer Science & Engineering

Present

University of Scholars, Banani, Dhaka

Professional Summary

AI Trainer and Data Annotation professional with experience evaluating AI-generated content, annotating multimodal data, verifying factual claims, and assessing model outputs for quality, accuracy, and relevance. Experienced in prompt analysis, comparative evaluation, coding-related AI tasks, data validation, and quality assessment, with a strong technical foundation in Python, web technologies, and AI-assisted tools.

AI & Data Skills

AI Evaluation	AI Response Evaluation, Quality Assessment, Factual Verification, Comparative Evaluation, Ranking
Data Annotation	Text, Image, Audio, Video Annotation, Data Validation, AI Training Data Quality Assessment
AI Training	Prompt Analysis, Response Optimization, Instruction Following, Truthfulness, Correctness, Writing Quality
AI Tools	ChatGPT, Gemini, Claude, AI-Assisted Workflows, Prompt Engineering
Technical	Python, C, C++, Pandas, NumPy, Matplotlib, Seaborn, Git

Experience

Generalist Expert

Mar 2026 – Apr 2026

Mercor

Remote

- Evaluated AI model outputs across Instruction Following, Truthfulness, Correctness, Writing Quality, Verbosity, and Overall Utility.
- Conducted Head-to-Head pairwise comparisons and Sets of Five trajectory rankings to assess response quality and consistency.
- Verified AI-generated claims using external sources to identify hallucinations, outdated information, and logical inconsistencies.

Speech Data Evaluator

Jun 2026 – Present

CrowdGen

Remote

- Annotated, transcribed, and reviewed complex conversational audio data to support AI-powered speech recognition model training.
- Evaluated and corrected machine-generated transcripts for strict verbatim accuracy, including stutters and filler words.
- Verified and classified data attributes including sentiment, code-switching, and speaker metadata across large datasets.
- Conducted content authenticity checks to identify synthetic (TTS), pre-recorded, and scripted audio for high-quality training data.

Data Annotator

Sep 2025 – Apr 2026

RWS

Remote

- Performed multimedia annotation across text, image, audio, and video datasets for AI and machine learning projects.
- Conducted quality assessment and comparative evaluation of AI training data to maintain annotation accuracy.
- Supported data preparation, validation, and quality control processes for machine learning workflows.

AI Trainer

Oct 2024 – Dec 2024

Outlier

Part-time

- Evaluated and improved AI-generated responses for quality, accuracy, relevance, and overall usefulness across diverse tasks.
- Performed detailed prompt analysis and comparative evaluation of AI-generated outputs against task requirements and expected responses.
- Assessed response quality by identifying factual issues, instruction-following problems, inconsistencies, and areas requiring improvement.

- Worked on coding-related AI tasks, evaluating solution approaches, technical explanations, and response quality.
- Contributed to response optimization by providing structured feedback and identifying improvements in clarity, correctness, and relevance.

Vibe Coder

Jan 2026 – Present

Mindrift

Remote

- Onboarded as a Vibe Coder based on analytical problem-solving and technical reasoning skills.
- Captured first-person perspective (egocentric) and hand-tracking videos for object labeling and action recognition tasks.
- Evaluated and verified location-based tasks to improve AI systems' spatial and contextual understanding.
- Reviewed and rated AI-generated outputs against quality, safety, and relevance standards.

Certifications & Achievements

- Echologyx – Special Recognition at Designathon 2026
- Micro1 – Software Developer
- Microsoft Learn – AI for Beginners
- Anthropic – AI Fluency, Claude, Claude Code, Claude API, Claude Platform, Claude Cowork, AI Capabilities and Limitations, Model Context Protocol, Agent Skills, Subagents, Amazon Bedrock, Google Cloud's Vertex AI
- IUPC (Intra University Programming Contest) – Champion, Senior Division
- Robofest 1.0 – Champion, Drone Competition

Additional

Languages: Bangla (Native), English (Professional Working Proficiency)

Office: Microsoft Word, PowerPoint, Excel, Google Workspace

Typing: 40+ WPM
